Hi Everyone,

Thanks so much for making time to meet last Thursday. I am very glad we had this discussion and I hope we can continue to coordinate through the BDCP process. Thanks also for sending the delta outflow material.

My action items are a list of contacts at DWR, copy of draft MOU, and draft CWA JD & functional assessment methods. See below for those items.

Also, I want to point you to our website which has our written/letter head communications about BDCP posted. These include things like our scoping comments (relevant to 401) from the NOP/NOI, a letter about project purpose and it's response from the federal lead agencies (relevant to alternatives and how they will be evaluated). These are both relevant letters to our discussion. I recommend reviewing them if you have time. <http://www.epa.gov/region9/water/watershed/sfbay-delta/cwa-nepa.html#bdcp>

Oh, and if you are interested in such things, the comments responding to the advanced notice of proposed rule-making we released back in February are also posted. Some of the comments are focused on estuarine habitat, X2, migratory corridors. Click on the link that says Public Comments.

Subject: Resending: Contact Information from Yesterday's BDCP Meeting

My first email got bounced by some of your servers. I downsized the scans and am resending. Sorry for any confusion:

All,

As we discussed yesterday, State Board staff has started coordinating with BDCP staff to get modeling and other analysis we'll need for development of new outflow objectives. Attached is our initial request, and some further correspondence clarifying our intent to two groups of concerned stakeholders.

It was an interesting and informative meeting yesterday. Let me know if you have any questions on the attached.

- Mark

>>> Erin Ragazzi 8/5/2011 1:36 PM >>>

Hello All-

Thank you all for attending yesterday's meeting on the Bay Delta Conservation Plan (BDCP) and the associated Delta Conveyance Project. Attached is a sign-in sheet from yesterday's meeting. Hopefully, Erin F. can use this to send the followup information we discussed yesterday (i.e., DWR contacts, draft MOU, etc.).

Erin R.
